### Background

The Quality Assurance (QA) Committee may randomly select registrants of the College to submit their QA ePortfolio each year. The QA Committee may also require registrants to submit their QA Records at any time.

### Purpose

The purpose of this Policy is to clarify the random selection process. This Policy is not intended to affect the authority of the QA Committee or an assessor to require registrants to submit their QA ePortfolio at any time or to order a peer and practice assessment under other circumstances.

### Policy

The random selection process for the selection of registrants to submit their QA ePortfolio will be conducted as a process of random selection without replacement for a period of five (5) years or more, such time period to be set by the QA Committee. The selection will take into account if a registrant's QA ePortfolio has been assessed, in the preceding five (5) years or other time period set by the QA Committee, as a result of the registrant having been randomly selected for such assessment.

This means that a registrant whose QA ePortfolio has been assessed in the preceding five (5) years or other time period set by the QA Committee, as a result of the registrant having been randomly selected for an assessment of their QA ePortfolio, will not be selected, through the random selection process, to undergo an assessment of their QA ePortfolio, more frequently than once in a five (5) year period.
